### **Midtown Community Court Workshop**

**April, 2007**

#### **Participant Evaluation Summary**

- According to the pre-workshop evaluation, 67% of participants had very little or no understanding of how paternity is established in Family Court. However, our post-workshop evaluation demonstrates that 80% of the workshop participants left with a very good or advanced understanding of how paternity is established in Family Court.
- While only 8% of workshop participants who completed our pre-workshop were aware of LIFT's Education & Information Sites located in the lobbies of Family Courthouses, our post-workshop survey reveals that as of the end of the workshop 83% of participants were made aware of our Education & Information Sites.
- Additionally, while our pre-workshop survey reflects that only 8% of participants were familiar with the existence of LIFT's Legal Information Hotline, the post-workshop survey shows a sharp rise to 92%.
- 92% of those who completed the post survey believed that the presenters had a very good or excellent knowledge of the subjects presented.
- In the comments section of our evaluation a number of participants contributed extremely generous compliments. Here are a few examples: "Very well put together presentation! The workshop greatly enhanced my knowledge about paternity and LIFT!", "Ruth was excellent, precise and to the point. She had an answer for every question. Not once did she say I don't know."
